

Technical Data Sheet

EX-8

Product Description

EX 8 is a specialty additive surfactant/thinner designed for use in brine diesel emulsion drilling muds. **EX 8** is designed to thin and provide rheology/viscosity control in brine diesel emulsion drilling mud packages.

Applications: Exact dosage/loading is contingent on factors such as mud properties, rheology, and solids content

Treatments: Neve add EX 8 without pilot testing in a premix or blender on site.

KEY BENEFITS

- **Highly reactive**
- **Quick acting**

Key Properties

Color	Yellow to Orange
Physical Form	Liquid
Sg	1.06
pH	6.0 - 8.0
Solubility in water	Soluble
Packaging	5 gal pails
