

Technical Data Sheet

Organoclay 22

Product Description

Organoclay 22 is a rheological additive for oil-base muds. **Organoclay 22** is a high quality thixotrope suitable for use in a wide variety of oils and solvents. **Organoclay 22** improves the carrying capacity, gel strength and suspension of barite.

Applications: increasing carrying capacity; suspension of weight material, and improving filter cake and filtration control.

Treatments: Typical concentrations range from 2 to 8 lb/bbl. Special application could require higher concentration of 10 lb/bbl.

Daily maintenance treatment are required. Pilot testing is suggested to determine the actual treatment required to obtain the desired properties.

KEY BENEFITS

- Increase carrying capacity
- Suspension of weight material
- Improving filter cake and filtration control

Key Properties

Color	Gray - Tan
Physical Form	Powder
Sg	1.6
Packaging	50 lb Sacks
