

Technical Data Sheet

Crème Beads

Product Description

Crème Beads is a highly concentrated surfactant blend formulated for use in water base muds as surface tension reducer. Because of the highly active nature of this products can be used in small amounts with dramatic results.

Applications: **Crème Beads** can be added to the suction while drilling or to the system as a pre treatment. Crème Beads will help reduce surface tensions

Treatments: The suggested application rate for this product is dependent up on the size of hole and formations being drilled.

KEY BENEFITS

- **Highly Reactive**
- **Prevents Bit and BHA balling**
- **Easy mixing**

Key Properties

Color	Pink
Physical Form	Powder
Smell	Lemon
Sg	2.6
pH	9.9.5 - 11.3
Packaging	5 gal pail to 55 gallon drums.
