

# Technical Data Sheet

## CARBO FORCE

### *Product Description*

**CARBO FORCE** is a carbon-based bridging agent that is sized to bridge and seal porous and fractured formations in water-, oil-, and synthetic-based drilling fluid systems and is available in coarse, fine, and medium grind sizes.

**Applications:** Works with water base and NAF on porous and fractured formations.

**Treatments:** Typical concentrations range from 2 to 8 lb/bbl with daily additions in 0.25 to 2 lb/bbl. Special application could require higher concentration of 10 lb/bbl.

### KEY BENEFITS

- Will not affect the rheological properties at normal concentrations
- Neutral pH
- High Temperature Ratings

#### Key Properties

|               |              |
|---------------|--------------|
| Color         | Grey ? Black |
| Physical Form | Powder       |
| Sg            | 1.06         |
| Packaging     | 50 lb Sack   |
