

Technical Data Sheet

DRILL PAPER

Product Description

DRILL PAPER is ground paper that can be used in all water-base mud systems to combat lost circulation.

Applications: to remediate partial to massive losses in the open hole and/or sealing perforations in cased hole.

Treatments: **DRILL PAPER** can be applied in concentrations up to 20lb/bbl in pill treatments or as an additive to the entire system. **DRILL PAPER** can be mixed through the mud hopper or added directly to the mud pits

KEY BENEFITS

- **Cost effective lost circulation material.**
- **Non-toxic, biodegradable, and contaminant free**
- **Compatible with other loss circulation materials.**

Key Properties

Flash point	NA
Color	Light grey
Physical Form	Ground paper
Sg	NA
Packaging	40 lb Sacks
