

Technical Data Sheet

OIL DRY

Product Description

OIL DRY is a blended formula of select grades of clay engineered to achieve the highest absorbency for the cost of product.

Applications:

OIL DRY is used to absorb oils, mixtures of soluble oils, acids, paints, inks, water and other liquids. Proper use of these products can reduce slipping accidents and hazards, prevent flash oil fires and keep floors clean and dry. Do not use with turpentine, vegetable oil, unsaturated organic compounds or hydrofluoric acid.

Treatments:

A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

KEY BENEFITS

- **Effective in reducing oil residue after spills**
- **Aids in spill control.**

Key Properties

Color	Off grey
Physical Form	grainy
Sg	2.1
Packaging	50 lb Sacks
